

JSC370 Final: Understanding Gender Bias in Self-Reported Software Compensation Data

Ziwen Han

2022-04-21

```
# run this if you do not have the csv (same as data/data.Rmd)
import pandas as pd
import requests
pd.DataFrame(requests.get('https://www.levels.fyi/js/salaryData.json').json()).to_csv('salary_data.csv')
```

Introduction

Methods

refer to data/data.Rmd give brief summary

Results

analysis goes here ### Discussion and Limitations

Summary and Conclusion

Reproducibility

This document is fully reproducible unless the data source has been removed. Refer to the `main.Rmd` file in the repository. Some lines of code are hidden.
